Saint Xain's International School

Saint Xain's **GALLERY**

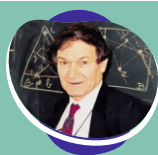

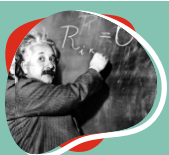

A GLIMPSE INTO THE PAST

The name **Saint Xain's** descended like a potion from Hazrat Zain-ud-Din Wali (R.A.), one of the most esteemed and loved Muslim saints of the 5th Century Kashmir, on a school that is now shining like the Pole Star under the name of **Saint Xain's International School** in the educational sky of South Kashmir.

Although the chill of November 2007 was letting everything freeze and come to a still, yet the passion of contributing to society kept breathing warm in the generous and compassionate hearts of its founders, eventually materializing this dream into reality through its inception in the very month of November 2007 in the civil lines area (K.P. Road) of Anantnag.

Like an unfledged bird then with just 4 to 5 teachers and 13 students, the school took its flight into the vast sky of education and now happens to be flying and flapping its wings as a 'Shaheen' above all others as far as quality education is concerned.

The painstaking efforts of the management and the dedicated staff continue to make the school excel and move ahead in every aspect. The school exhibited an incomparable progress and is now the torch-bearer in the field of quality education in South Kashmir.

The Principal's Voice

Education is the lone way of progress in every society. The term 'education' encompasses more than just knowledge or knowing. It is a harmonious blend of just academia, arts, sports, emotions, attitudes, creativity, nature and life all alike.

My belief of excellence in education stands on sincerity, dedication, unshakeable intention, intellectual dimension and apt execution and that is what **Saint Xain's International School** is all about.

We here at **Saint Xain's International School** are fully committed towards achieving the holistic development of our students so as to translate their intellectual and emotional potential into an entity of realistic worth and value.

We are going all out in elevating the level of our institute. We have transformed academics paradigmatically from traditional approach to the most novel method. We have initiated personalized teaching approach. Through this personalized attention, the students' learning level is sure to be upgraded and polished up.

Our efforts in adopting novel pedagogies and creative methodologies render us grab an avant-garde position in imparting quality education. The grammar translation method has been replaced. Moreover, with direct approach we minimize **MTI** in second language learning. We admire and appreciate the esteemed parents and guardians for their commendable support in letting **Saint Xain's International School** shine and scintillate surpassing others. We also pledge to leave no stone unturned for your child's better tomorrow.

Thank you

Regards,
Dr. Fahmeeda Jan

MISSION

Saint Xain's International School sees every student as a successful torch-bearer of high value, intelligence and principles. **Saint Xain's International School** targets excellence in every field - Academics, Sports, Fine Arts etc. The school believes in exploring the latent talent of the students and giving them wings of fly high above the daily trifles.

VISION

We here at **Saint Xain's International School Anantnag** take a pledge to empower our students with value based education and to enhance among them essential skills that will support them throughout their lives. We believe in stimulating creative and critical faculties in the students that will help them embark on a mission of life-long learning, to participate and to contribute in bringing a positive change in the society they live in.

Message From HODs

DEPARTMENT OF ENGLISH

The Department of English at our institution is dedicated to cultivating linguistic proficiency and literary sensibility among students, enabling them to engage meaningfully with the world around them. Our academic framework is designed to strengthen the four core components of language learning — Listening, Speaking, Reading and Writing. Through abalanced integration of these skills, students develop clarity of expression, coherence in communication anda refined appreciation of the nuances of the English language.

We emphasize active language engagement and the critical study of literature, fostering analytical abilities through interpretation, discussion and reflective inquiry. The department continually encourages experiential and participatory learning, wherein students explore texts, contexts and ideas beyond conventional boundaries.

By promoting literary awareness, critical thinking and creative development, the Department of English strives to nurture independent thinkers, articulate communicators and aesthetically aware individuals capable of contributing thoughtfully to academic and social discourse.

Thank you!

Wahid Yousuf

M.A., B.Ed., CTET-I, II

Certified English Language Trainer

Head, Department of English

DEPARTMENT OF SCIENCE, ROBOTICS AND AI

At the heart of every great discovery lies a spark of curiosity. Here in the Science Department, we strive to ignite that spark in every student.

Our world is shaped by science, and we are committed to shaping the scientists, critical thinkers, and problem-solvers of tomorrow.

Through a dynamic curriculum, hands-on experimentation in our modern labs, and a passion for inquiry, we empower students to explore the “how” and “why” of the universe around them.

We welcome you to join us on this exciting journey of discovery.

Er. Aadil Nazir Naikoo.

B.Tech, M.Tech (Gold Medalist).

Head of Department, Science, Robotics and AI.

DEPARTMENT OF MATHEMATICS

“Mathematics is not just about numbers, equations, or formulas — it’s about thinking, reasoning and discovering patterns that shape our world.”

At Saint Xain’s, we believe every student is a problem solver, a thinker, and a creator. Through Mathematics, we learn not only to calculate but to innovate, explore and connect ideas beyond the classroom.

Mushtaq Ahmad Bhat

M.A. (Mathematics), B.Ed.

DEPARTMENT OF SOCIAL SCIENCE

The department of social science helps students to understand the world they live in—its people, history and cultures. Our lessons go beyond the classroom through on-the-spot observations, field visits and interactive activities that make history and other subjects come alive.

Our vision is to shape young minds into thoughtful, responsible and aware citizens who value our rich heritage and work towards a better future. We aim to make every child see the beauty of learning from the past and understanding the present to build a brighter tomorrow.

Thank you.

Dr. Riyaz Ahmad Parah.
MA, MPhil, PhD

DEPARTMENT OF ARABIC LANGUAGE

"At the Arabic Language Department, we envision a future where every student masters the Arabic language as a gateway to understanding the Qur'an and Sunnah, fostering spiritual growth and cultural connection. Through innovative, student centered teaching that integrates technology, classical texts, and real-world applications, we aim to cultivate linguistic excellence and a deep appreciation for the rich heritage of Islam and Arab civilization. Our inclusive environment empowers learners from all backgrounds to engage meaningfully with sacred texts, develop critical thinking, and embody the values of the Sunnah in their lives. By nurturing fluency, empathy and lifelong learning, we aspire to produce graduates who contribute to global dialogues with wisdom, compassion and cultural intelligence."

في قسم اللغة العربية، نتصور مستقبلاً يتقن فيه كل طالب اللغة العربية ك بوابة لفهم القرآن الكريم والسنة النبوية، مما يعزز النمو الروحي والارتباط الثقافي. من خلال تدريس مبتكر يركز على الطالب ويدمج التكنولوجيا والنصوص الكلاسيكية والتطبيقات الواقعية، نهدف إلى تنمية التفوق اللغوي وتقدير عميق لثراث الإسلام والحضارة العربية. بيئتنا الشاملة تمكن المتعلمين من جميع الخلفيات من التفاعل مع النصوص المقدسة، وتنمية التفكير النقدي، وتجسيد قيم السنة في حياتهم، ليسهموا بحكمة ورحمة في الحوارات العالمية."

PRIMARY DEPARTMENT

"Children carry the light of innocence that brightens even the darkest hearts."

Education is not confined to books or lessons—it is about igniting the flame of knowledge in young hearts. At the Primary Block, we believe that every child is special, unique, and capable of achieving greatness when nurtured with care, encouragement, and faith.

Let us continue to guide our children with gentle hands and kind hearts—helping them discover the joy of learning, the beauty of kindness, and the strength of honesty. Together, let us make every classroom a garden where young minds blossom beautifully.

With warm Regards,

Shaan Ulfat
Head Teacher, Primary Block

LOWER PRIMARY DEPARTMENT

At Saint Xain's International School, our LPD Block is thoughtfully designed to nurture young minds with care, creativity, and curiosity. We believe that every child is unique, and through an engaging blend of academics and activity-based learning, we lay a strong foundation for lifelong growth.

Our classrooms are spacious, well-lit, and equipped with modern learning aids to ensure comfort and focus. Each class maintains a balanced teacher-student ratio to provide individual attention and foster holistic development. The block offers a rich learning environment with facilities such as an activity room, audio-visual learning tools, indoor play zones, and safe outdoor play areas.

We emphasize experiential learning through storytelling, art, music, and interactive sessions that build confidence and communication skills. Alongside academics, moral and social values are gently instilled to shape responsible and compassionate individuals.

At LPD, we don't just teach — we nurture imagination, inspire curiosity, and help our little minds blossom into confident learners ready for the world ahead.

MAJOR ACADEMIC TRANSFORMATIONS

We here at **Saint Xain's International School, Anantnag** test the waters and make every possible effort to bring about transformation in academics in particular and in every other sector in general.

The prominent changes brought are:

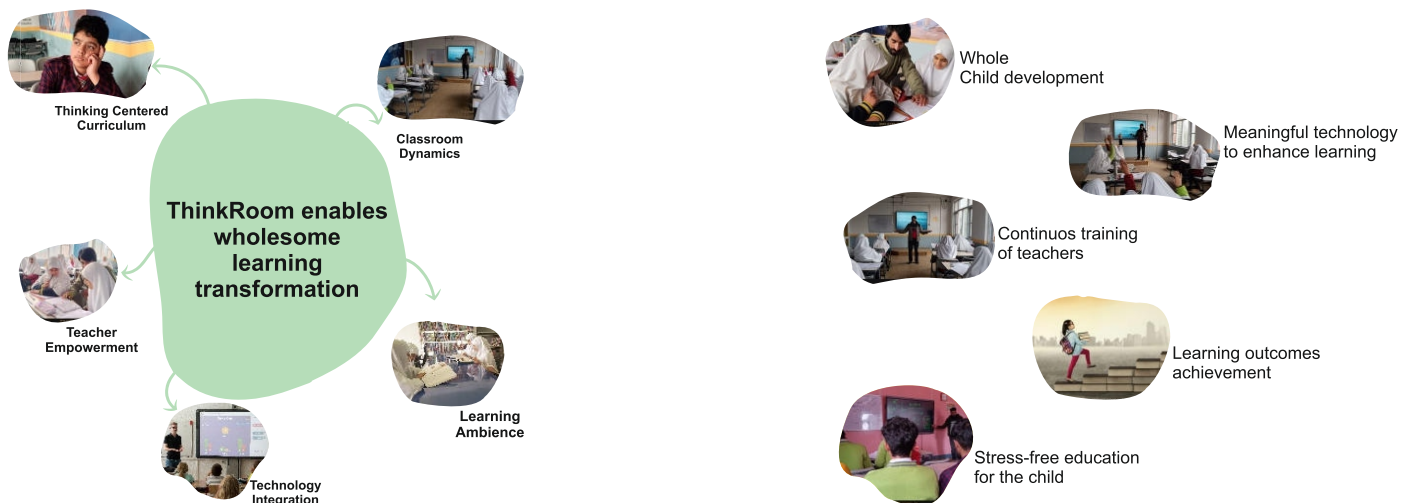

01 THINKROOM TECHNOLOGY

Our classrooms are thinkrooms where every child is filled with the sheer joy of thinking, learning and expressing freely.

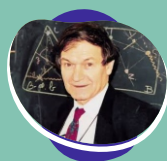

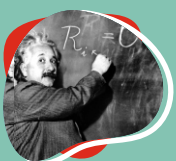

Through **Thinkroom**, we have committed ourselves to the roadmap set by National Education Policy 2020. We are committed to implementing the following recommendations in the current academic year.

Thinkroom awakens a child's mind to bring out the extraordinary Human Potential. Thinkroom goes beyond achieving mere academic excellence to awaken the Human Potential in every child. Major benefits of Thinkroom Technology include digital interactives that make remote lessons interactive, digitization of curriculum, actionable reports, insightful dashboards etc.

The novel academic approach has turned our classrooms into think rooms infusing delight and pleasure of think learning and expressing thoughts into the heart of every child.

Thinkroom has paved the way for us to dedicate ourselves to the roadmap set by National Education Policy 2020, rendering us to devote to the execution of the following recommendations in the academic year.

Nine Reasons Why Our THINKROOMS

Are Different From Classrooms Elsewhere

- The child is engaged at every step of learning.
- The child derives and learns the concepts on her own, leading to self-learning. Here, teacher becomes a facilitator.
- The child applies concepts in real-life context.
- Designed based on SOLO Taxonomy and to appeal to different learning styles.
- The child discovers social values through empathy and reflection.
- The child enjoys expressing in varied ways.
- The child enjoys low-stake assessment.
- The child doesn't just solve but also creates word problems in Mathematics. Thinking along the four Facets: Look deep, look around, look within and look beyond becomes a child's habit.

01 AI AND ROBOTICS

In the age of technological transformation, education must evolve to keep pace with the demands of the future. Our advanced AI and Robotics Lab gives students hands-on experience with the latest technologies, encouraging innovation, creativity and problem-solving skills. With the launch of its cutting-edge AI and Robotics Lab, **Saint Xain's International School** is empowering students to become innovators, problem-solvers and global tech leaders of tomorrow.

02 IIT / NEET FOUNDATION CLASSES

The preparation for competitive exams like **IIT, JEE, NEET**, etc actually start from class 9th. Considering this, the institute has been endeavoring painstakingly to initiate a program where this need is met. Fortunately, we have come off with the flying colors as the program of foundation classes is now available in our campus from class 6th to 10th

Our scholars have also appeared in **SOF** and other competitive exams and proved their mettle.

We are constantly building up high quality classrooms in terms of academics and infra-structure as well, rendering our classrooms equipped with high-tech 4 in 1 panels.

In addition to this, we have stocked our classrooms with perfectly cozy and comfortable single seating arrangements plying to let the pupils taste the sense of royalty and easement to the fullest degree.

03 INSTALLATION OF SCHOOL CINEMA

School Cinema is a research oriented program that helps influence young minds in schools to make better choices for themselves as young adults, ensuring that they grow into confident and responsible individuals.

OBJECTIVES OF SCHOOL CINEMA

- To equip children with necessary life skills, values and attitudes.
- To bring parents into a circle of learning through specially created films on parenting.
- It acts as a good training aid for adults to understand children.
- It promotes learning with fun.
- It supports optimum usage of audio-visual facilities in schools.

04 LANGUAGE LAB

The establishment of language lab provides the students with technical tools to get the best samples of pronunciation of language. The devices stimulate the learners to acquire the language quickly and easily.

05 Department of CREATIVE WRITING

To groom the students' creative abilities in writing and to furnish wings to their imagination, the school has launched the Department of Creative Writing. Here, the students will be prepared, pruned and polished to compose poetry and other creative stuff.

This department quite productively adheres to the well established approach viz. Free Writing, Hierarchical Easy Writing, Self Writing and Creative Writing, thus solidifying the very base of Writing Skills in the students.

HIGHLIGHTS

PRE-PRIMARY STAGE (PRE-NURSERY, NURSERY AND LKG)

- Giving due consideration to the emotional, physiological and aesthetic aspects of a KG child, we here at **Saint Xain's International School** make it our mission to motivate, inspire, encourage and support the young buds by providing them a safe, secure and loving environment and to educate them socially, emotionally and intellectually in a play-way method.
- We ensure that our qualified and experienced KG teachers provide the children with the opportunities in the domain of cognitive development, thereby enhancing their listening, writing and reading skills.
- Catering to their physical well-being and the recreational aspects of life, the students are provided with the regular play breaks under a proper supervision and care.

THE PRIMARY STAGE (CLASS 1ST TO 5TH)

- Through this spectrum, we lay great emphasis on the development of creative and critical abilities in all our children.
- A momentous emphasis is laid on the spoken language development, voice modulation and creative writing through a well laid work schedule under proper supervision.
- To enhance the students' interest in scientific concepts, the study program is correlated and made analogous with real life.

- Emphasis is laid on the practical work conducted in the lab under a well-qualified and expert supervision.

THE MIDDLE STAGE (CLASS 6TH TO 8TH)

- Through this stage, our students are no longer passive learners, but actively participate in the learning process.
- Enhanced Language Development: The students are competent enough to craft their own answers to the questions posed.
- The students are expected to study science, social science and language with critical perspective and develop a scientific temperament.

THE SECONDARY STAGE (CLASS 9TH TO 10TH)

- Through this stage the students are counseled how to broaden their knowledge and how to approach various concepts with creative and critical perspective.
- Emphasis on preparing the students for the off-campus examinations and giving them a sound foundation for the professional courses they aspire to secure for themselves.
- The students are guided how to inculcate good habits and do away with the bad ones.
- The students are encouraged to develop a habit of result-oriented self study.

OUR DEDICATED GROWTH PARTNERS

GNEET, OXFORD and SCHOOL CINEMA are our dedicated growth partners to assist us in elevating the level of our Academia.
